Our vision...

Under the mission of the Foundation for Healthy Communities to improve health and well-being for all, the Granite State Health Care Coalition (GSHCC) works with partners to improve the readiness of New Hampshire's healthcare system.

What is the GSHCC?

The Granite State Health Care Coalition is a network of representatives from public and private organizations from across the healthcare and public health landscape in New Hampshire. The GSHCC assists healthcare and public health partners in preparing for, responding to, and recovering from events impacting the health care system in New Hampshire. The GSHCC serves as a support to ESF-8 through preparedness, response, and recovery efforts, including in response to planned and real-world events.

Why join?

Local and regional disasters are likely to create a surge of patients and casualties that might overwhelm our healthcare system and providers. The Granite State Health Care Coalition provides the opportunity for providers, healthcare and public health organizations to plan, prepare and train for catastrophic events through collaboration essential to integrated disaster response.

Our objectives...

- Develop relationships with healthcare and public health partners
- Participate in coordinated trainings and exercises that test organizational and response capabilities
- Expand regional planning and agreements
- Bridge the gaps between partners
- Improve communication and information sharing
- Assist in building community resilience
- Provide access to situational awareness
- Provide access to communication systems
- Provide guidance and management of Juvare systems
- Share best practices and lessons learned

Member Benefits

GSHCC

Program Staff:

Scott Nichols

GSHCC Director

snichols@healthynh.org

Shaylin Lipman

GSHCC Program Coordinator

slipman@healthynh.org

Victoria Paige

GSHCC Exercise &

Training Officer

vp Paige@healthynh.org

Dakota Hayes

Planner

dhayes@healthynh.org
